**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 23-38 are allowed as a result of a Decision on Appeal by The Board of Patent Appeals and Interferences mailed on 3/24/2009. Claims 23 and 31 are independent claims and the rest are their dependencies.

2. The following is an examiner's statement of reasons for allowance:

With reference to claim 23, the prior art of record, either alone or combined, does not anticipate or render obvious a computer-based contracting method comprising of the following steps, as a whole: receiving a user-supplied set of constraints regarding a print job project, storing the set of constraints in a database as an object, creating a plurality of instances of the object, each instance uniquely associated with a corresponding vendor, communicating each instance of the object to its corresponding associated vendor, receiving communications from the user and the vendors to iteratively modify the instances of the object, the modifications further constraining the print job project, selectively displaying to the user the modified instances of the object individually or collectively, and receiving a selection from the user of one of the vendors to complete the print job project.

The limitations of claim 31 are similar to the limitations of claim 23 and is therefore allowed on the basis of same rationale as set forth for claim 23 above. Dependent claims are also allowed on the basis of same rationale as set forth for claim 23 above.

3. Discussion of best prior art: Thackston (US Patent 6,295,513 B1), Hill (US Patent 5,970,471) and Huberman (US Patent 5,826,244), alone or combined , does neither anticipate nor render obvious the limitations of claims 23 and 32, as a whole, (see Board decision mailed 3/24/2009, pages 4-10).
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yogesh C. Garg whose telephone number is 571-272-6756. The examiner can normally be reached on Increased Flex/Hoteling.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeffrey A. Smith can be reached on 571-272-6763. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
